January 14, 2019

Parents and Guardians:

Please read the message below from Peter Brooks, Director of Food Services.

We are excited to remind you, all Mitchell Elementary students can start the day by eating breakfast in their classroom. Please be assured that this program will not interfere with classroom instruction. It is our hope that this program will increase the number of students who eat breakfast. Breakfast will be offered at no cost to students who qualify for free and reduced priced meals and \$1.50 for all other students. Students can bring in money or use their Pin to purchase breakfast.

Please contact your school principal if you have any questions.
