2018-19 Student and Parent/Guardian Handbook

MISSION STATEMENT AND GOALS OF REGION 14 SCHOOLS

The Region 14 community ensures an engaging and positive learning environment where every student is valued as a respected contributing member of society, who graduates prepared to meet the challenges of a rapidly changing world.

BOARD OF EDUCATION GOALS

- All students will graduate equipped with the necessary knowledge and skills to be prepared for a successful future in a global society.
- Regional School District 14 will attract, develop and retain the highest quality teachers, administrators and staff.
- Regional School District 14 will provide a safe and secure facilities equipped with technology enabling a 21st century modern learning environment that mirrors our educational values.

PREFACE

The material covered within this student handbook is intended as a method of communicating to students and parents regarding general district information, rules and procedures and is not intended to either enlarge or diminish any Board policy, administrative regulation or negotiated agreement. Material contained herein may therefore be superseded by such Board policy, administrative regulation or negotiated agreement. Any information contained in this handbook is subject to unilateral revision or elimination from time-to-time without notice.

This booklet is written for our students and their parents. It contains required and useful information. Because it cannot be as personal a communication as we would like, we address students not directly as “you” but rather as “the student,” “students,” or “children.” Likewise, the term “the student’s parent” may refer to the parent, legal guardian, or other person who has agreed to assume responsibility for the student. Both students and parents need to be familiar with the District’s Student Code of Conduct which is intended to promote school safety and an atmosphere conducive for learning.

The Student Handbook is designed to be in harmony with Board policy. Please be aware that the handbook is updated yearly, while policy adoption and revision may occur throughout the year. Changes in policy that affect portions of this Handbook will be made available to students and parents through our website.

STATEMENT OF NON-DISCRIMINATION

The Regional School District 14 Board of Education does not discriminate on the basis of race, color, religion, marital status, national/ethnic origin, age, sex, gender identity or expression, sexual orientation, or disability in its programs, activities, and employment practices as set forth in compliance with the Office of Civil Rights, Title VI, Title IX, and Section 504. Any person having inquiries concerning Regional School District 14 Public Schools’ compliance with Section 504, Title VI or Title IX should contact: Kimberly Culkin, Director of Human Resources, Regional School District 14, 67 Washington Avenue, PO Box 469, Woodbury, CT 06798 (203) 405-8413

EQUAL OPPORTUNITY

Each student is encouraged to develop and achieve individual educational goals. The district will provide every student with equal educational opportunities regardless of race, color, creed, gender, sexual orientation, gender identity or expression, national origin, religion, age, economic status, marital status, or disability. No student will be excluded on such basis from participating in or having access to any course offerings, student athletics, counseling services, employment assistance, extracurricular activities or other school resources. Programs and activities shall be accessible and usable by individuals with disabilities as prescribed by law.

Kimberly Culkin is the designated district compliance officer, who will coordinate compliance with the nondiscrimination requirements of Title IX of the Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973.

ADMISSION/PLACEMENT

A student seeking enrollment in the Region 14 School District for the first time or following attendance in another Connecticut public school district, out-of-state attendance, private school attendance or admission through a bona fide foreign exchange program should contact the principal. A student who is transferring from non-public schools or schools outside the district will be placed at his/her current grade level pending evaluation and observation of the student after such assessment and consultation with the parents, the principal will determine the grade placement of the child. The parent or person having control of a child seventeen years of age may consent to such child's withdrawal from school. The parent or person having control of a child seventeen years of age may exercise the option by personally appearing at the school district office to sign a withdrawal form. A student who has attained the age of seventeen and who has voluntarily terminated enrollment in the district's schools and subsequently seeks admission may be denied readmission for up to ninety school days from the date of such termination unless such student seeks readmission to the District not later than ten school days after such termination in which school accommodation will be provided not later than three school days after such student seeks readmission. A student, nineteen years of age or older may be placed in an alternative school program or other suitable educational program if he/she cannot acquire a sufficient number of credits for graduation by age twenty-one. Students who are classified as homeless under federal law and do not have a fixed residence will be admitted pursuant to federal law.

AMERICAN WITH DISABILITIES ACT AND SECTION 504 OF THE REHABILITATION ACT OF 1973

The Board shall not discriminate on the basis of race, color, religion, sex, sexual orientation, gender identity or expression, national origin, disability, marital status or age. The Board will promote an educational environment free from harassment and discrimination. In keeping with requirements of federal and state law, the Board strives to remove any element of discrimination in employment, assignment and promotion of personnel; in educational opportunities and services offered to students; in student assignment to schools and classes; in student discipline; in location and use of facilities; in educational offerings and materials; and in accommodating the public at public meetings. The Board shall adopt and the District shall publish grievance procedures providing for

prompt and equitable resolution of complaints concerning the Americans with Disabilities Act (ADA), Section 504 of the Rehabilitation Act of 1973, Title IX, and the Age Discrimination Act. As part of those procedures, the Superintendent shall appoint and publish the names of the individuals to contact with any such complaints. Federal civil rights laws prohibit discrimination and/or retaliation against an individual because he/she has opposed any discriminatory act or practice or because that person has filed a charge, testified, assisted or participated in an investigation, proceeding or hearing. The Board shall not retaliate against any person for these types of protected activities, or coerce, intimidate, threaten or interfere with an individual for exercising the rights guaranteed under these federal laws.

Should you have any questions regarding Section 504, please call either your child's school principal or the Civil Rights Coordinator, Christina Fensore for the Region 14 School District at 203-263-4330.

ASBESTOS

Legislation requires all school buildings to be reevaluated to determine if asbestos is present and if it poses a significant health hazard to the building's occupants. The District has on file plans showing the location of asbestos in each building and measures undertaken to comply with regulations to maintain a safe school environment. Request to review these plans may be made in the school office.

ATTENDANCE

The Regional School District No. 14 Board of Education, pursuant to state statutes and in an effort to provide all students with continuity of instructional experience, requires all students to attend school on scheduled days. Students attending school who are under seven and over sixteen years of age, and whose attendance is not required by law, but who are registered in a public school, must maintain satisfactory attendance. The complexity of instructional material requires good attendance. Absences create learning gaps that require extra effort by students and teachers.

Connecticut state law requires parents to make sure that their children between the ages of 5 to 18 attend school regularly. Daily attendance is a key factor in student success, thus any absence from school is an educational loss to the student. These rules are designed to minimize student absenteeism while providing students the opportunity to make up school work missed due to a legitimate absence.

Absence means an excused absence, unexcused absence or an in-school suspension that is greater than or equal to one-half of a school day.

A student is considered to be "in attendance" if present at his/her assigned school, or an activity sponsored by the school, such as a field trip, for at least half of the regular school day. A student serving an out-of-school suspension or an expulsion will always be considered absent.

The parent or person having control of a child shall have the option of waiting to send the child to school until the child is six or seven years of age, upon signing an option form at the school district offices.

A child whose total number of absences at any time during a school year is equal to or greater than 10% of the total number of days that the student has been enrolled at the school during the school year is considered a “chronically absent child.” The child will be subject to review by the district and/or the school attendance team.

A student must remain in school until age 18, unless he/she graduates or gets written consent from a parent/guardian on a district provided form to leave school at age 17.

Absence

Every attempt should be made to confine necessary appointments to after school, weekends and vacation periods. When a parent determines that an absence is necessary, parents are requested to contact the school on the morning of the absence by telephoning the school.

If it is not possible to telephone the school on the day of absence, the parent is requested to send a written excuse to the school on the date of the student’s return. The student should submit the excuse directly to the office. Parents should contact the principal in order to take advantage of special services such as the collection of homework assignments for the student who must be out several days.

Excused Absence

A student’s absence from school shall be considered “excused” if written documentation of the reason for such absence has been submitted within ten (10) school days of the student’s return to school and meets the following criteria:

- A. For absences one through nine, a student’s absences from school are considered “excused when the student’s parent/guardian approves such absence and submits appropriate documentation to school officials.
- B. Students receive an excused absence for the tenth absences and all absences thereafter, when they are absent from school for the following reasons:
 1. Student illness, verified by a licensed medical professional, regardless of the length of the absence.
 2. Students observance of a religious holiday.
 3. Death in the student’s family or other emergency beyond the control of the student’s family.
 4. Court appearances which are mandated. (Documentation required)
 5. The lack of transportation that is normally provided by the district other than the one the student attends.
 6. Extraordinary educational opportunities pre-approved by District administration and in accordance with Connecticut State Department of Education guidelines.
 7. Additional 10 days for children of service members.

The responsibility for makeup of work lies with the student, not the teacher.

Unexcused Absence

Unexcused absences are those which do not fall under any of the excused absences. Students who have unexcused absences may be denied makeup privileges. Such absences may also be reflected in the students' final grade.

Absences which are the result of school or district disciplinary action are excluded from the definitions.

Although the school will maintain records and keep parents informed within the limit of its capability, parents and students are expected to keep accurate attendance records and compare them to report cards issued quarterly. Parents are also encouraged to contact the teachers, guidance counselors and administrators to get help in verifying attendance and attendance records at any time during the year.

Chronic Absenteeism

A student whose total number of absences at any time during a school year is equal to or greater than ten percent of the total number of days that such student has been enrolled at such school during the school year is considered to be a "chronically absent child." Such a student will be subject to review by the attendance review team and the chronic absenteeism prevention and intervention plan developed by the State Department of Education.

Leaving School Grounds/Release of Students from School

Under no circumstances may a student leave the school or school grounds during school hours without permission from his/her parents or guardians and school administration. In the event it is necessary for a student to be dismissed early, a parent or guardian should send a written request to the office. Children of single-parent families will be released only upon the request of the parent whom the court holds directly responsible for the child and who is identified as such in the school records, unless prior arrangements have been made with the school. Arrangements should be made with the building administrator regarding the parent or guardian to pick up the student in the school office.

If someone other than a parent/guardian picks up the student, the person appearing in the school office should bring a note of identification from the parent or guardian.

Truancy

Please refer to BOE policy [5113](#) for full guidance on Truancy.

A student age five to eighteen inclusively with 4 (four) unexcused absences in one month or 10 (ten) unexcused absences in a school year will be considered a truant.

Parents have the responsibility to assist school officials in remedying and preventing truancy. School staff are mandated by the state to report excessive absences or patterns of concern.

Information about truancy will also be posted in the annual strategic school profile reports.

BACKGROUND CHECKS

All volunteers must complete an annual background check before working with students. Forms are available at each school office and on the district website. Forms must be dropped off **IN PERSON** at the respective schools (only one check is needed if you have multiple children in Region#14 schools) and the school SRO will process the form. Please make sure to bring a government-issued form of identification (i.e.: passport, driver's license).

BOARD OF EDUCATION

Board members are unpaid elected public officials with the responsibility for governance of the school district. The members of the Region 14 School District Board of Education are:

Chairperson:	Janet Morgan
Vice-Chairperson:	Maryanne Van Aken
Secretary:	Pamela Zmek
Treasurer:	George Bauer
Members:	John Chapman Michael Devine David Lampart Carol Ann Brown

In order to perform its duties in an open and public manner and in accordance with state law, the Region 14 School District Board of Education holds regular business meetings on the first and third Mondays of each month at 7:00 PM in the Board of Education room, located in the Central Office located at 67 Washington Avenue, Woodbury, CT 06798. Parents, students and other community members are encouraged to attend.

Meetings of the Board follow a planned and posted agenda. At a certain time in the agenda the Board chairperson will recognize individuals who want to make a statement, not more than 3 minutes in length, or to express a viewpoint. In addition, if they give advance notice to the Superintendent, individuals with relevant issues for discussion may have such issues placed on a future Board agenda for a more thorough discussion of the topic.

The Board's main purpose is policy setting designed to improve student learning. Board members are interested in the public's opinion on district issues, which can assist them in formulating policy which reflects community values and expectations.

BREATHALYZERS

Please refer to BOE policy [5145.12](#) for full guidance on breathalyzers.

The safety of students is a primary concern. Students who consume alcohol and/or are under the influence of alcohol at school or at any school function pose a danger to themselves and others. In order to protect student safety, school administrators may utilize a breathalyzer to determine whether a student is under the influence of alcohol.

BULLYING

Please refer to BOE policy [5131.911](#) for full guidance on bullying.

Bullying of a student by another student is prohibited. Such behavior is defined as the repeated use by one or more students of a written, oral or electronic communication, such as cyberbullying, directed at or referring to another student attending school in the same school district or a physical act or gesture by one or more students repeatedly directed to another student attending school in the same school district that:

- A. causes physical or emotional harm to such student or damage to such student's property,
- B. places such student in reasonable fear of harm to himself or herself, or of damage to his or her property,
- C. creates a hostile environment at school for such students,
- D. infringes on the rights of such student at school, or
- E. substantially disrupts the education process or the orderly operation of a school.

Bullying shall include, but not be limited to, a written, oral, or electronic communication or physical act or gesture based on any actual or perceived differentiating characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity or expression, socioeconomic status, academic status, physical appearance, or mental, physical, developmental or sensory disability, or by association with an individual or group who has or is perceived to have one or more of such characteristics. *(The student against whom the activity is directed must be attending school in the same district as the students engaged in the activity.)*

Examples of bullying include, but are not limited to:

1. Physical violence and attacks
2. verbal taunts, name-calling and put-downs including ethically-based or gender-based verbal put-downs
3. Threats and intimidation
4. Extortion or stealing of money and/or possessions
5. exclusion from peer groups within the school
6. The misuse of electronic communications for the purpose of bullying, harassing, or sexually harassing other students within school or out of school ("cyberbullying")
7. Targeting of a student based on the student's actual or perceived "differentiating" characteristics such as race; color; religion; ancestry; national origin; gender; sexual orientation; gender identity or expression; socioeconomic or academic status; physical appearance; or mental physical, developmental, or sensory disability.

A student who engages in any act of bullying, on school grounds, at a school-sponsored or school-related activity, function or program whether on or off school grounds, at a school bus stop, on a school bus or other vehicle owned, leased or used by the Board of Education, or through the use of an electronic device or an electronic mobile device owned, leased or used by the Board of Education, and outside of the school setting if such bullying:

1. creates a hostile environment at school for the victims,
2. infringes on the rights of the victim at school, or
3. substantially disrupts the education process or the orderly operation of a school, are subject to appropriate disciplinary action up to and including suspensions, expulsion and/or referral to law enforcement official.

A student and/or his/her parent may file a written report of conduct they consider bullying. Students may also make an informal complaint of conduct that they consider to be bullying by verbal report to any school employee, who will promptly reduce the complaint to writing and forward it to the Safe School Climate Specialist for review and action. (The District/School needs to place in the student handbook the process by which students may make formal, informal and/or anonymous complaints.) The complaint procedure is also posted on the District's website and the school website.

Students and parents are permitted to make anonymous reports of bullying. Parent written reports and student anonymous reports will be investigated by the Safe School Climate Specialist but no disciplinary action shall be taken solely on the basis of an anonymous report.

The Safe School Climate Specialist is responsible for taking a bullying report and investigating the complaint. Parents of students involved in a verified act of bullying will be invited to attend at least one meeting at school.

“Bullying” means the repeated use by one or more students of a written, oral or electronic communication, such as cyberbullying, directed at or referring to another student attending school in the same school district or a physical act or gesture by one or more students repeatedly directed at another student attending school in the same school district that:

- A. Causes physical or emotional harm to such student or damage to such student's property,
- B. Places such student in reasonable fear of harm to himself or herself, or of damage to his or her property,
- C. Creates a hostile environment at school for such student,
- D. Infringes on the rights of such student at school, or
- E. Substantially disrupts the education process or the orderly operation of a school.

Bullying shall include, but not be limited to, a written, verbal or electronic communication or physical act or gesture based on any actual or perceived differentiating characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity or expression, socioeconomic status, academic status, physical appearance, or physical, mental, developmental or sensory disability, or by association with an individual or group who has or is perceived to have one or more of such characteristics.

Students who engage in any act of bullying, on school grounds, at a school-sponsored or school-related activity, function or program whether on or off school grounds, at a school bus stop, on a school bus or other vehicle owned, leased or used by the Board of Education, or through the use of an electronic device or an electronic mobile device owned, leased or used by the Board of Education, and outside of the school setting if such bullying:

- A. Creates a hostile environment at school for the victim,
- B. Infringes on the rights of the victim at school, or
- C. Substantially disrupts the education process or the orderly operation of a school.

Students and/or parents may file verbal or written complaints concerning suspected bullying behavior, and students shall be permitted to anonymously report acts of bullying to school employees. Any report of suspected bullying behavior will be promptly reviewed. If acts of bullying are verified, prompt disciplinary action may be taken against the perpetrator, consistent with his/her rights of due process. Board policy and regulation #[5131.911](#) set forth this prohibition and the related procedures in detail, and are available to students and their parents/guardians upon request.

BUS CONDUCT

School transportation privileges are extended to students conditional upon their satisfactory behavior on the bus. Students may be suspended from transportation services for unsatisfactory conduct while awaiting or receiving transportation to and from school which endangers persons or property or violates a Board policy or administrative regulation.

CAFETERIA

The District participates in the National School Lunch Program and offers to students nutritionally balanced lunches daily. Free and reduced price lunches are available based on financial need. Information on this program can be obtained from Wayne McAllister, Director of Finance/Operations.

It is the intent of the Board of Education that schools take a proactive effort to encourage students to make nutritious food choices. Food and beverages offered for sale to students, whether in the cafeteria, school store, or vending machines will meet federal and state standards and guidelines. All sodas and sports drinks will not be available for sale.

In conformity with applicable law, necessary accommodations will be provided, where required, for students with food allergies, including emergency procedures to treat allergic reactions which may occur.

CHANNELS OF COMMUNICATIONS

If there is a question about a student's classes or work in school, it is best to first contact the person who is closest to the situation. In most cases this is the teacher. The proper channeling of complaints regarding instruction, discipline or learning materials is (1) teacher, (2) principal, (3) superintendent, (4) board of education .

CHILD ABUSE, NEGLECT AND SEXUAL ASSAULT

Please refer to BOE policy [4100](#) for full guidance.

All school employees, including teachers, superintendents, principals, coaches of intramural or interscholastic athletics, paraprofessionals and other professional school staff including guidance counselors, social workers, psychologists, and licensed nurses are obligated by law (C.G.S. 17a-101) to report suspected child abuse, neglect, or if a child is placed in imminent danger of serious harm or sexual assault by a school employee to the Connecticut State Department of Children and Families Services. Specific procedures governing the reporting of abuse and neglect are in effect, and staff receive yearly training in their use.

Reporting of child abuse, neglect and sexual assault by a school employee is a responsibility which is taken seriously. If there is any doubt about reporting suspected abuse, neglect or a sexual assault a report will be made. The school will work with the parents and appropriate social agencies in all cases.

Child abuse is defined as any physical injury inflicted by other than accidental means or injuries which are not in keeping with the explanation given for their cause. Improper treatment such as malnutrition, sexual molestation, deprivation of necessities, emotional abuse, cruel punishment or neglect are also considered child abuse.

CLASS PLACEMENT

Every effort will be made to place students with teachers where a positive student-teacher relationship will be established. The final decision for placement rests with the principal or his/her designee.

COMPUTER RESOURCES

Please refer to BOE policies [6141.321](#) acceptable use, [6141.326](#) use of social media, and [6141.328](#) bring your own device, for full guidance.

District resources have been invested in computer technology to broaden instruction and to prepare students for an increasingly computerized society. Use of these resources is restricted to students working under a teacher's supervision and for approved purposes only. Students and parents will be asked to sign a user agreement regarding appropriate use of these resources. Violations of this agreement may result in withdrawal of privileges and other disciplinary action.

Students and parents should be aware that e-mail communications, using district computers, are not private and may be monitored by staff. Students may not access social media sites using District equipment, while on District property, or at a District sponsored activity unless the posting is approved by a teacher. The District will not be liable for information posted by students on social media websites, such as Facebook, MySpace, YouTube, etc., when the student is not engaged in District activities and not using District equipment.

The District reserves the right to monitor, inspect, copy, review and store at any time and without prior notice any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage. All such information files shall be and remain the property of the School District and no user shall have any expectation of privacy regarding such material.

Federal law requires the district to place filtering devices on school computers to block entry to visual depictions that are obscene, pornographic, harmful or inappropriate for students as defined in the Children's Internet Protection Act and as determined by the Superintendent or his/her designee.

The Board of Education is committed to aiding students and staff in creating a 21st Century learning environment. Therefore students (plus staff) will be permitted to access the District's wireless network with their personal devices during the school day. With teacher approval, students may use their own devices to access the Internet and collaborate with other students.

Students and parents/guardians participating in the Bring Your Own Device/Technology program must adhere to the Student Code of Conduct, as well as all applicable Board policies, particularly the Computer Acceptable Use policy.

CONDUCT

Student shall not smoke or use tobacco products or e-cigarettes or vapor product devices on school property or at any school-related or school-sanctioned activity, on or off school property as provided by state and federal law.

Substance Abuse

Please refer to BOE policy [5136.6](#) for full guidance on alcohol, drugs, and tobacco.

As stated in the CONDUCT section of this handbook, the school prohibits the manufacture, distribution, dispensing, possession or use of alcohol or controlled substances on school grounds or during school activities. Any student in violation of this will be subject to the following disciplinary actions:*

In addition to the prohibition pertaining to alcohol, drugs, tobacco and inhalants, the Board of Education prohibits the use of performance-enhancing drugs, including anabolic steroids and food supplements, including Creatine, by students involved in school-related athletics or any co-curricular or extracurricular school activity or program, other than use for a valid medical purpose as documented by a physician.

Substance abuse or distribution of drugs and/or drug paraphernalia including alcohol may indicate serious, underlying problems. Every effort will be made to offer student assistance, including early identification, referral for treatment to private or community agencies and aftercare support.

Disciplinary procedures will be administered with the best interests of the student, school population and community in mind and with due consideration of the rights of students. However, consideration must be given to the fact that substance abuse is illegal and subject to criminal prosecution. Unauthorized possession, distribution, sale or consumption of dangerous drugs, narcotics or alcoholic beverages are considered grounds for expulsion.

Students are encouraged to consult with teachers, administrators and other professional staff on substance abuse problems. A staff member who is contacted by a student regarding a drug or alcohol problem may elect to keep that information confidential and not disclose it to any other person in accordance with state law. However, the student will be encouraged at the earliest appropriate time to seek help from parents or guardians.

In such cases, the decision to involve the parents/guardians will be arrived jointly by the student and educator unless, in the judgement of the educator, the mental or physical health of the student is immediately and dangerously threatened by drug/alcohol use. If such danger is imminent, the parents/guardians and health officials will be notified so that appropriate action can be taken.

CYBER BULLYING

For full guidance please refer to BOE policy [5131.911](#) on bullying and [5131.913](#) on cyberbullying. The District's computer network and the Internet, whether accessed on campus or off campus, during or after school hours, may not be used for the purpose of harassment. All forms of harassment over the Internet, commonly known as cyber bullying, are unacceptable, a violation of District policy and of the District's acceptable computer use policy and procedures. Cyberbullying means any act of bullying through the use of the Internet, interactive and digital technologies, cellular mobile telephone or other mobile electronic devices or any electronic communications.

Cyber bullying includes, but is not limited to, such misuses of technology as harassing, teasing, intimidating, threatening, or terrorizing another person by sending or posting inappropriate and hurtful e-mail messages, instant messages, text message, digital pictures or images, or website postings, including blogs. It is also recognized that the author (poster or sender) of the inappropriate material may be disguised or logged on as someone else.

Students and community members who believe they have been the victims of such misuses of technology as described, should not erase the offending material from the system. A copy of the material should be printed and brought to the attention of the Safe School Climate Specialist, the Principal or Director of Technology. All reports of cyberbullying will be investigated by the Safe School Climate Specialist.

In situations in which the cyberbullying originated from a non-school computer, but brought to the attention of school officials, any disciplinary action shall be based upon whether the conduct is determined to be severely disruptive of the educational process so that it markedly interrupts or severely impedes the day-to-day operation of school. Also, such conduct must be violative of a publicized school policy. Such conduct includes, but is not limited to, threats, or making a threat off school grounds, to kill or hurt a teacher or student.

Disciplinary action may include loss of computer privileges, detention, suspension or expulsion. A communicated threat or a hate crime will be reported to the police.

Students will be provided instruction about appropriate online behavior.

Defibrillators in Schools (AED's)

Each school will have (1) one automatic external defibrillator (AED) and (2) school personnel trained in AED operation and cardio pulmonary resuscitation (CPR). The AED and trained personnel will be available during the school's normal operational hours, at school-sponsored athletic events and practices on school grounds and at school-sponsored events not taking place during normal school operational hours. The school also has an emergency action response plan addressing the use of trained school personnel to respond to individuals experiencing sudden cardiac arrest or similar life threatening emergencies.

DISCIPLINE

Please refer to BOE policy [5114](#) for full guidance on discipline.

A student who violates the district's code of conduct shall be subject to disciplinary action. Region 14's disciplinary actions may include using one or more discipline management techniques, such as detention, removal from class, removal to an alternative education program, in school suspension, out of school suspension, and expulsion. Disciplinary measures will be appropriate for the offense. In addition, when a student violates the law that student may be referred to legal authorities for prosecution. Students are subject to discipline, up to an including suspension and expulsion for misconduct, which is seriously disruptive of the educational process and violates publicized board of education policy even if such conduct occurs off-school property and during non-school time.

Expulsion

Please refer to BOE policy [5114\(a\)](#) for full guidance on expulsion.

A teacher may remove a student from all classes when the student deliberately causes a serious disruption to the teaching and learning process within the classroom.

Prior to an expulsion hearing, information concerning legal services that are provided free of charge or at a reduced rate that are available locally and how to access such services shall be provided to the student and his/her parent or guardian.

The Board of Education may expel a student in grades 3 through 12 inclusive, from school privileges if, after a full hearing, the Board finds that the student's conduct endangers person(s), property or the educational process or is in violation of a publicized Board policy. Students who have been expelled may be eligible for an alternative educational program.

Expulsion from school will result in the loss of all extracurricular and social privileges during the period of expulsion.

For any student expelled for the first time and who has never been suspended, the Board of Education may shorten the length of or waive the expulsion period if the student successfully completes a Board specified program and meets any other conditions required by the Board,. Such a Board specified program does not require the student or the parent/guardian of the student to pay for participation in the program.

Students in grades kindergarten through grade 12 inclusive are subject to mandatory expulsion for the possession and/or use of weapons, including martial arts weapons, or other dangerous instruments in any school building, on school grounds, in any school vehicle, or at any school sponsored activity for a calendar year. A student in grades kindergarten through grade 12 inclusive, who offers illegal drugs for sale or distribution on or off school grounds is also cause for expulsion for a calendar year. The Board may modify the expulsion period on a case-by-case basis.

Whenever a student is expelled, notice of the expulsion and the conduct for which the student was expelled will be included on the student's cumulative education record. The record will be expunged if the student graduates from high school and the expulsion was not for weapon possession and/or for the sale or distribution of illegal drugs.

If students expulsion is shortened or the expulsion period waived based upon the fact that the student was expelled for the first time, has never been suspended and successfully completed a Board specified program and/or met other conditions required by the Board, the notice of expulsion will be expunged from the cumulative educational record if the student graduates from high school or, if the Board so chooses, at the time the student completes the Board specified program and meets other Board required conditions.

A district student who has committed an expellable offense who seeks to return to a District school after having been in a juvenile detention center, the Connecticut Juvenile Training School or any

other residential placement for one year or more, in lieu expulsion from the District, shall be permitted to return to the appropriate school setting within the District. Further, the District will not expel the student from any additional time for the offense(s).

Suspension

Please refer to BOE policy [5114\(a\)](#) for full guidance on suspension.

A teacher may remove a student from a class when the student deliberately causes serious disruption of the teaching and learning process within the classroom. School administrators will determine, using state guidelines, whether the suspension will be in-school or out-of-school.

The administration may suspend a student for infraction of school rules. Suspension is defined as an exclusion from school privileges for not more than ten (10) consecutive days, provided such exclusion shall not extend beyond the end of the school year in which suspension was imposed. Students in preschool through grade 2, inclusive, may only receive in-school suspensions, unless, after an informal hearing, the administration determines that an out-of-school suspension is appropriate based on evidence that the students conduct on school grounds is of a violent or sexual nature that endangers persons.

However, no student shall be suspended without an informal hearing before the building principal or his/her designee at which time the student shall be informed of the reasons for the disciplinary action and given an opportunity to explain the situation, unless circumstances surrounding the incident require immediate removal. In such instance the informal hearing will be held during the suspension.

Suspension from school will result in loss of extracurricular and social privileges during the period of suspension.

For any student suspended for the first time and who has never been expelled, the administration may shorten the length of or waive the suspension period if the student successfully completes an administration-specified program and meets any other administration-required conditions, which shall not incur an expense to the student or his/her parents.

DISTRIBUTION OF MATERIALS

Materials may be distributed to parents by students as a means of communications. All requests from groups or individuals to have students distribute materials to the community, with the exception of school-connected organizations, will be referred to the office of the superintendent to determine whether the request complies with school policy.

The superintendent may approve such distribution providing:

1. The material is related to the school, community, local recreational or civic activity.
2. The material does not relate to any religious belief or activity, or promote private gain.
3. The material does not promote any outside governmental political party, candidate or position.
4. Does not promote profit making organizations.

5. Does not advocate a position regarding a referendum question.

Materials that have a religious content may be made available to students during non-instructional time. The District has the right to impose neutral time, place and manner restrictions on the dissemination of religious materials to ensure that students are aware that the materials are not endorsed or sponsored by the District.

Publications prepared by or for the school maybe posted or distributed, with prior approval by the principal, sponsor or teacher. Such items include school posters, brochures, school newspapers and yearbook.

EMERGENCY SCHOOL CLOSING INFORMATION

In the event school is closed due to inclement weather or another emergency, announcements will be posted on the district's website: <https://www.ctreg14.org/>, via social media platforms (Twitter and Facebook), and via a Powerschool message to notify parents/guardians. The information will also be available on the following TV/radio stations: Channel 3, Channel 8, Fox 61, 960 AM. 1080 AM, 1320 AM. 940 AM. 800 AM. 92.5 FM. 99.9 FM, 102.9 FM. 104.1 FM and 105.9 FM. In addition, "text alerts" may be set up on cellular devices to be alerted by the television stations.

ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (esol)

The number of students from non-English speaking backgrounds is increasing, including those with limited English proficiency. Such students will be identified, assessed and provided appropriate services.

Exemption from Instruction

A student will be exempted from instruction on Acquired Immune Deficiency Syndrome (AIDS), Bilingual Education, or Family Life and Sex Education upon receipt of a written request for such exemption from his/her parent or guardian. In addition, a student will be excused from participating in, or observing animal dissections as part of classroom instruction upon a written request from the student's parent or guardian. The student must complete an alternate assignment determined by the school.

EXTRACURRICULAR ACTIVITIES

Athletics

Please refer to BOE policy [6145.2](#) for further guidance.

Athletics are considered an integral part of the school's educational program. Whether participation is on the intramural, interscholastic, or class level, students have an opportunity to acquire qualities of fitness, self-discipline, and cooperation.

Student athletes may not participate in any intramural or interscholastic activity unless the student athlete and his/her parent/guardian completes the concussion education plan and sign the informed consent form.

The concussion education plan may consist of written materials, online training or videos, or in person training. The consent form includes a summary of the school/district's concussion education plan and applicable school board concussion policies.

Student interscholastic activities shall be governed by the Connecticut Interscholastic Athletic Conference (CIAC) regulations. Eligibility for participation is governed by state law as well as the regulations of the CIAC. Any student athlete who has not reported to school by noon will not be permitted to practice or play that afternoon or evening. Exceptions to this rule will be considered only if the player's parent explains the unusual circumstances to the principal or designee.

FIELD TRIPS

Field trips may be scheduled for educational, cultural, or extracurricular purposes. Any student whose behavior is considered detrimental to the well-being of other students may be barred from participation by the principal. While on a trip, all students are considered to be "in" school. This means that conduct and dress standards will be appropriate for the field trip activity. The Board of Education strongly encourages all transportation of student to be on buses or other transportation vehicles which conform to the requirements of law and regulations of the State Department of Education.

The District does not endorse, sanction, sponsor or approve student travel to foreign countries by teacher-sponsored private trips/tours. Such programs are sponsored by outside agencies, not the Board of Education.

All volunteers must complete an annual background check before working with students. Forms are available at each school office and on the district website. Forms must be dropped off IN PERSON at the respective schools (only one check is needed if you have multiple children in Region#14 schools) and the school SRO will process the form. Please make sure to bring a government-issued form of identification (i.e.: passport, driver's license).

FINANCIAL ASSISTANCE

Students will not be denied opportunity to participate in any class or school sponsored activity because of inability to pay for material fees, transportation costs, admission prices, or any other related expenses. Any student who needs financial assistance for school activities should contact a guidance counselor, advisor or administrator to request confidential help.

FIRE DRILLS AND EMERGENCY PREPAREDNESS

Fire drills are held at regular intervals as required by state law. Students must follow the exit directions posted in each classroom. A crisis response drill will be substituted for one of the required monthly school fire drills every three months. Such crisis response drill will be planned and conducted with the local law enforcement agency. Such crisis response drills will incorporate the basic protocols of lockdown, evacuation, and shelter-in-place responses.

Students are expected to follow the direction of teachers or others in charge quickly, quietly and in an orderly manner.

The signal for a fire drill is a constant blast on a special horn. When the alarm sounds, students are to proceed along the posted exit routes in a quick, quiet and calm manner. Students should not return to the building until the return signal is given.

Local law enforcement and other local public safety officials will evaluate and provide feedback on fire drills and crisis response drills.

FOOD ALLERGIES

Please refer to BOE policy [5141.25](#) for full guidance.

The school is committed to providing a safe environment for students with food allergies and to support parents regarding food allergy management. A plan based upon guidelines promulgated by the State Department of Education will be implemented for each student for the management of students with life-threatening food allergies and glycogen storage disease.

Substitutions to the regular meal provided by the school will be made for students who are unable to eat school meals because of their medical needs, when that need is certified in writing by a physician. Meal services will be provided in the most integrated setting appropriate to the needs of the disabled student. An Individualized Health Care Plan (IHCP) and an Emergency Care Plan (ECP) shall be developed and implemented for students identified with food allergies. Such students may also be eligible for accommodations and services under Section 504 and special education law.

We ask that all elementary school parents be sensitive to common childhood allergies. Some classrooms are designated “nut free zones”. It is imperative that all students in any of these designated classrooms not bring peanut or products with nuts into school for classroom snack. Be advised that under no circumstances is a student allowed to eat on a school bus unless a medical condition substantiated with a physician’s order warrants such activity.

FUNDRAISING

Please refer to policy [1314](#) soliciting funds from/by personnel, [1324](#) soliciting funds from/by students.

Student clubs or classes, outside organizations, and/or parent groups occasionally may be permitted to conduct fundraising drives for approved school purposes. An application for

permission must be made to the Principal and Superintendent at least 2 weeks before the event. Except as approved by the Superintendent, fundraising by outside vendors is not permitted on school property.

Any food items sold as part of any fundraising activity must meet the nutritional standards published by the Connecticut Department of Education. Beverage or foods not allowed for sale during regular school hours may be sold provided (1) the sale is in connection with an event occurring after the end of the regular school day or on the weekend, (2) the sale is at the location of such event, and (3) the food or beverage are not sold from a vending machine or school store.

GRADUATION REQUIREMENTS

Please refer to BOE policy [6146](#) graduation requirements and [6146.1](#) weighted grading for full guidance. Students must successfully complete the required number of credits and must demonstrate proficiency in the skills identified by the board of education, as required for graduation. A multi-facet assessment procedure will be used, including specific target scores on the Connecticut Academic Performance Test.

It is the policy of the Board of Education that a grade in an honors class or an advanced placement class is given added weight for purposes of calculating grade point average and determining class rank. The administration shall develop and publish a formula for calculation of grade point average and class rank reflecting the weighted grading system. The Superintendent or his/her designee shall ensure that parents are notified of this policy.

GREEN CLEANING PROGRAMS

Please refer to BOE policy [3525](#) for full guidance.

A green cleaning program to clean and maintain the school will be implemented by July 1, 2011. The program provides for the procurement and proper use of environmentally preferable cleaning products in the school. The cleaning products used meet standards approved by the Department of Administrative Services and minimize potential harmful effects on human health and the environment. Parents/Guardians may request a written copy of the District's policy pertaining to the green cleaning program and a written statement which includes the names and types of environmentally preferable cleaning products used in the school and where in the building they are applied; the schedule for applying the products; and the names of the school administrator or designee whom the parent/guardian or student may contact for more information.

“No parent, guardian, teacher, or staff member may bring into the school facility any consumer product which is intended to clean, deodorize, sanitize or disinfect” (a required statement by law).

HARASSMENT STATEMENT

Please refer to BOE policy [5145.52](#) and [5145.52A](#) for full guidance.

Every child has the right to feel safe, valued and comfortable in school. No one else's behavior should ever make children feel afraid or embarrassed because of their race, color, religion, national origin, sex, sexual orientation, gender identity or expression, or any disability they may have. The

District has zero tolerance for harassment of any kind. Students are expected to treat other students and district employees with courtesy and respect; to avoid any behaviors known to be offensive; and to stop those behaviors when asked or told to stop.

Parents are urged to reinforce with their child(ren) that if he/she is harassed or sees harassment happening to someone else that he/she should report the behavior to a teacher or the principal. To maintain a productive and positive learning environment, the Board of Education will make every attempt to halt any harassment of which they become aware by calling attention to this policy or by direct disciplinary action, if necessary.

A student who believes he/she has been harassed is encouraged to report the incident to the principal or Kim Culkin, Director of Human Resources. The allegations will be investigated and addressed and appropriate disciplinary action taken, where necessary.

HAZING ACTIVITIES

Students are prohibited from participating in any hazing activities. Hazing is any activity that recklessly or intentionally endangers the mental or physical health or safety of a student for the purposes of initiation or admission into or affiliation with any student organization.

HEALTH SERVICES

The (school health office) is designed to provide care to students who become ill or are injured while in school.

A cumulative health file is maintained for each student. This file includes notations of past illnesses, results of physical examinations, and other pertinent health information.

Please refer to BOE policy [5141.3](#) for full guidance on audiometric, visual, and postural screening.

Parents are notified of any deviation from the normal pattern of health and suggestions are given for follow-up. It is likewise important that parents notify the (school nurse) in case of a student's illness. If a student is to be excused or limited for an extended period from participation in school activities, he/she is required to bring a statement signed by a physician. The (school nurse) is available to parents and students for conferences regarding health issues.

Note: Due to latex allergies, latex balloons, gloves, and other products are prohibited.

Administration of Medication

Please refer to BOE policy [5141.21](#) for full guidance.

Parents of students requiring medication during school should contact the (school nurse). Special forms are required to permit the administration of medicine in school. They are available from the (school nurse). All medication must be in original container with proper labels.

In cases in which a student is able to self-administer medication, the parents or guardians must submit a signed statement that the medication must be taken during the school day and the student is capable of administering the medication. The statement must be accompanied by a physician's, dentist's or advanced practice registered nurse's statement indicating the necessity and naming the medication, the strength, and the prescribed dosage. It must specify the schedule on which it is to be taken and the details of administration. Such statements must be renewed at the beginning of each school year.

A student with asthma or an allergic condition may carry an inhaler or an EpiPen or similar device in school at all times if he/she is under the care of a physician, physician assistant or advanced practical nurse and such practitioner certifies in writing that the child needs to keep an asthmatic inhaler or EpiPen at all times to ensure prompt treatment of the child's asthma or allergic condition and to protect the child against serious harm or death. A written authorization of the parent/guardian is required.

A school nurse, or in the absence of the nurse, a "qualified school employee" may administer epinephrine in a cartridge injector for the purpose of emergency first aid to students who experience allergic reactions but were not previously known to have serious allergies and therefore do not have prior written authorization of a parent/guardian or qualified medical professional for the administration of epinephrine. Parents/guardians may submit in writing to the school nurse and school medical advisor that epinephrine shall not be administered to his/her child.

A school nurse, or in the absence of the nurse, a "qualified/school employee" may administer anti-epileptic medication to a specific student with a medically diagnosed epileptic condition that requires prompt treatment in accordance with the student's individual seizure action plan. Written parental permission and written order from a physician is required.

A student with diabetes may test his/her own blood glucose levels if the student has written permission from his/her parents/guardian and a written order from a Connecticut licensed physician. The time or place of such testing shall not be restricted.

A school nurse or the principal will select a qualified school employee to, under certain conditions, give a glycogen injection to a student with diabetes who may require prompt treatment to protect him/her from serious harm or death. Written parental permission and written order from a physician are required.

The District does not allow the ingestion of marijuana for palliative (medical) use in any school, on school grounds or at school-sponsored activities, on or off school grounds.

Communicable/Infectious Diseases

Please refer to BOE policy [5141.22](#) for full guidance.

Students with any medical condition which within the school setting may expose others to disease or contagious and infectious conditions may be excluded from school and referred for medical diagnosis and treatment. Additional information concerning this may be obtained from the school nurse.

Before a child may return to school after an absence due to such condition, parents and students may be required to submit medical evidence that their child has recovered sufficiently to prevent exposing others.

Disabilities

School district will not discriminate on the basis of disability as required under ADA, IDEA and Section 504 and C.G.S. 10-76a and any similar law or provision.

Emergency Medical Treatment

Parents are asked each year to complete an emergency information form for use by the school in the event of a medical emergency.

Health Records

School nurses maintain health records using the Connecticut “Health Assessment and Record Form.” These records are accessible to certified staff working with the child and to school health aides if permission is granted by the nurse or building administrator. Parents may request to inspect the health records of their child. Copies may be provided if requested. Original copies of the record are sent where a student transfers to another school in the state. If moving out-of-state, a copy will be forwarded. Health records are maintained for at least six years after the student graduates. The District will comply with the requirements of the Health Insurance Portability and Accountability Act (HIPPA) to maintain the privacy of protected health information.

Homeless Students

Homeless students, as defined by federal and state legislation, will have all programs, services, and transportation that other students enjoy and may continue to attend the school of origin. The local liaison for homeless children is Chrissy Fensore, Director of Special Services.

Illness

Please notify the school nurse if your child will be absent from school for reasons such as an operation or a communicable disease. An operation may require program modification and the presence of a communicable disease may need to be shared with other parents if their child has been exposed to the disease.

If there is any question of your child not feeling well in the morning, please keep him/her at home. If a child has an elevated temperature, he or she should remain home until the temperature has returned to normal and is maintained at normal for 24 hours without the use of fever reducers such as Advil, Tylenol, or Ibuprofen. Children who are sent home by the nurse for illness and/or elevated temperature should remain at home an additional 24 hours to complete their recovery. Parents must sign their child out from the main office prior to picking up their child in the Health

Office. The school nurse and principal are the only persons authorized to dismiss a child from school. The school nurse will administer first aid if a child becomes ill. No medications will be given without a physician's order. The parent will be contacted by the school nurse or office when necessary.

Immunizations

Please refer to BOE policy [5141.3](#) for full guidance.

All students must be immunized against certain diseases and must present a certificate from a physical or local health agency. If the student should not be immunized due to medical or religious reasons, a statement from a physician or the parent as appropriate must be provided.

For further information regarding immunizations please refer to the [State of Connecticut immunization requirements](#) or by contacting your school nurse.

Physical Examinations

Please refer to BOE policy [5141.3](#) for full guidance.

All students must present evidence of a recent physical examination by a licensed Physician (completed within the last 12 months) upon enrollment to the district. (C.G.S. 10-204a) State mandated health assessments shall also be required prior to the end of the 6th grade year and prior to the end of the 10th grade year. All students in grades K, 1, 3, 4, and 5 will undergo vision and hearing screening by the school nurse. Postural screening will be conducted for all female student in grades 5 and 7 and for male students in grade 8 or 9. If a homeless student, as defined by federal statute, lacks immunization/medical records, the school will enroll the child and refer the parent/guardian to the district's homeless liaison.

HOMEWORK

The purpose of homework is to help students become self-directed, independent learners and is related to the educational progress of the student. It serves to help all students reach their instructional goals.

Specific homework assignments may strengthen basic skills; extend classroom learning; stimulate and further interests; reinforce independent study skills; develop initiative, responsibility, and self-direction; stimulate worthwhile use of leisure time; and acquaint parents with the student's work in school.

In order for homework to be an effective support for learning, the homework policy requires a partnership among the school system represented by the teacher, the student and their parents. Without this partnership in support of learning, students will not achieve their full potential.

INSURANCE

School insurance is made available to families through a specific program. Brochures are distributed to all students at the beginning of each academic year. Each district school will conduct a security and vulnerability assessment every two years.

The District has developed, maintains, an emergency disaster preparedness and response plan for implementation as needed (“School Security and Safety Plan”). The plan is based upon the standards promulgated by the Department of Emergency Services and Public Protection. Development and implementation of the plan includes collaboration with local and state emergency responders, (law enforcement, fire department, emergency rescue squads and local public health administrators). The plan, representing an all hazards approach, utilizes the four recognized phases of crisis management: (1) mitigation/prevention, (2) preparedness, (3) response, (4) recovery.

Please refer to BOE policy [5145.12](#) for full guidance.

The right to inspect desks, lockers and other equipment assigned to students may be exercised by school officials to safeguard students, their property and school property. An authorized school administrator may search a student’s locker or desk under the following conditions:

1. There is reason to believe that the student’s desk or locker contains contraband material.
2. The probable presence of contraband material presents a serious threat to the maintenance of discipline, order, safety and health in school.

This document serves as advance notice that school board policy allows desks and lockers to be inspected if the administration has reason to believe that materials injurious to the best interests of students and the school are contained therein.

Under special circumstances, school officials may search students, particularly if there is reasonable suspicion that a student possesses illegal matter, such as a dangerous weapon or illegal

drugs. Students must be aware that such items are forbidden both on school property and at school-related activities.

Student vehicles parked on school grounds may be searched if there is reasonable cause to search. The District may use trained dogs to alert school officials to the presence of prohibited or illegal items, including drugs and alcohol. At any time, trained dogs may be used on lockers and vehicles parked on school property. Searches of classrooms, common areas or student belongings may also be conducted by trained dogs when students are not present. Drug-sniffing dogs will not be used to sniff students. A locker, a vehicle, or an item in the classroom to which a trained dog alerts may be searched by school officials.

When used, parents will be notified within 24 hours, but a reasonable attempt will be made to notify parents/guardians immediately after restraint or seclusion is initiated.

SEXUAL ABUSE PREVENTION AND EDUCATION PROGRAM

Students in grades K-12 will be involved in a prevention-oriented child sexual abuse program which teaches students age-appropriate techniques to recognize child sexual abuse and how to report it. Parents/guardians may permit their child to opt out of the awareness program or any part of it by notifying the school in writing of such a request.

STUDENT PUBLICATIONS

Students have the right to express their views in speech, writing, or through any other medium or form, limited solely by those restrictions imposed on all citizens generally and those specifically applicable to children and youths in a school setting.

The school encourages student publications not only because they offer an educational activity through which students gain experience in reporting, writing, editing, and understanding responsible journalism, but also because they provide an opportunity for students to express their views and a means of communicating both within and beyond the school community.

All student publications must comply with the rules for responsible journalism. Libelous statements, unfounded charges and accusations, obscenity, also statements, materials advocating racial or religious prejudice, hatred, violence, the breaking of laws and school policies and/or regulations, or materials designed to disrupt the educational process will not be permitted.

Distribution of Literature

Students have a right to distribute literature on school grounds and in school buildings provided such distribution does not interfere with or disrupt the educational process. No literature may be distributed unless a copy is submitted in advance to the Superintendent of Schools and/or the Building Principal.

STUDENT RECORDS

Please refer to BOE regulation [5145.15](#) for full guidance.

A student's school records are confidential and are protected by federal and state law from unauthorized inspection or use. A cumulative record is maintained for each student from the time the student enters the district until the student withdraws or graduates. This record moves with the student from school to school.

By law, both parents, whether married, separated, or divorced, have access to the records of a student who is under 18 or a dependent for tax purposes. A parent whose rights have been legally terminated will be denied access to the records if the school is given a copy of the court order terminating these rights.

The principal is custodian of all records for currently enrolled students at the assigned school. The (Superintendent) is the custodian of all records for students who have withdrawn or graduated. Records may be reviewed during regular school hours upon completion of the written request form. The record's custodian or designee will respond to reasonable requests for explanation and interpretation of the records.

Parents of a minor or of a student who is a dependent for tax purposes, the student (if 18 or older), and school officials with legitimate educational interests are the only persons who have general access to a student's records. "School officials with legitimate educational interests" include any employee such as an administrator, teacher, support staff, Board of Education member, attorney, agents, or facilities with which the district contracts for the placement of students with disabilities, as well as their attorneys and consultants, who are:

1. Working with the student;
2. Considering disciplinary or academic actions, the student's case, an Individual Education Plan (IEP) for a student with disabilities under IDEA or an individually designed program for a student with disabilities under Section 504;
3. Compiling statistical data; or
4. Investigating or evaluating programs.

A student over 18 and parents of minor students may inspect the student's records and request a correction if the records are inaccurate, misleading, or otherwise in violation of the student's

privacy or other rights. If the district refuses the request to amend the records, the requestor has the right to a hearing. If the records are not amended as a result of the hearing, the requestor has 30 school days to exercise the right to place a statement commenting on the information in the student's record. Although improperly recorded grades may be challenged, parents and the student are not allowed to contest a student's grade in a course through this process. Parents or the student have the right to file a complaint with the U.S. Department of Education if they believe the district is not in compliance with the law regarding student records. The district's policy regarding student records is available from the principal's or superintendent's office.

Copies of student records are available at a cost of \$0.10 per page, payable in advance. Parents may be denied copies of a student's records (1) after the student reaches age 18 and is no longer a dependent for tax purposes; (2) when the student is attending an institution of post-secondary education; (3) if the parent fails to follow proper procedures and pay the copying charge; or (4) when the district is given a copy of a court order terminating the parental rights. If the student qualifies for free or reduced-price meals and the parents are unable to view the records during regular school hours, upon written request of the parent, one copy of the record will be provided at no charge.

Certain information about district students is considered directory information and will be released to anyone who follows procedures for requesting it, unless the parent objects to the release of any or all directory information about the child. This objection must be made in writing to the principal within ten school days after the issuance of this handbook. Directory information includes a student's name, address, telephone number, date and place of birth, major field of study, grade levels, photograph, e-mail address, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, awards received in school, and most recent previous school attended.

Military recruiters or institutions of higher learning shall have access to secondary school students names, addresses and telephone listings, unless a parent/guardian or secondary student aged 18 or over requests in writing that such information not be released.

The District will release to the Parent Teacher Association the names, addresses, telephone number and grade levels of students (unless the District is informed by September 15 of the school year that designation of such directory information has been refused as to a particular student) provided such information is to be used by the PTA for its own school activities or school business.

There are exceptions to the requirement for written consent of a parent or eligible student:

The District will forward education records to other agencies or institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer. This includes the transfer of disciplinary records with respect to a suspension or expulsion.

Parents and eligible students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the Requirements of FERPA.

Complaints may be addressed to: Family Policy Compliance Office, U.S. Department of Education, 5400 Maryland Avenue, S.W., Washington, DC 20202-4605.

The district's HIPPA Privacy Officer is Kimberly Culkin.
